

DOCTOR ZEST'S CBD OIL PRODUCTS

The Story and The Oil

Doctor Zest's CBD oil is made with 99% pure CBD isolate hemp powder (derived from certified industrialized hemp) in combination with MCT oil.

For the oil tinctures, MCT oil is the “carrier” and is derived from coconut oil. There is no flavor or smell of coconut. There is nothing in the bottle but CBD and MCT oil. [Plus the free dropper, of course.] The water-soluble tincture is different, so see below.

Bottles are 60ml (2oz.) - enough for 62 doses. A “dose” is a full dropper. A full squeeze of the bulb fills the dropper half way up for that reason.

Suggested Usage: Take one-half dropper each morning and one-half dropper each night.

For faster absorption empty the dropper under your tongue and keep it there for a minimum of 60 – 90 for faster absorption.

Dosage: “Dosages” are suggested, but you must find your own dosage. Start with directions above for one week, then increase if there are no, or minimal, results. For some, it takes a week to take effect. Some people have taken more than a month to get desired results. Usually it is within 1 – 4 days.

People are unique. We are all different, with differing body chemistry, so it not surprising that dosages may vary with each person. The suggested dosage usually works best.

You do not want to take too little or too much CBD oil. Both interfere with potential results. That is why we suggest starting with the minimum dosage for one week. Then if your desired results are not reached, increase the dosage gradually a week at a time...until you find YOUR level.

FDA Approval: No CBD oil has been FDA approved.

Results: Results can never be promised.

Returns Policy: Doctor Zest's pure CBD oil is 100% guaranteed. Not the results you wanted? Send back the unused portion in original bottle, along with the original invoice, for FULL refund.

History

Dr. DJ's (the Doctor Zest) Personal Experience

[This will explain why Doctor Zest CBD products are front and center on our site. DoctorZest.com exists, simply, to remove pain. We specialize in relationships because of the top 15 stressors in our lives, 12 are because of relationships! Originally, we began DZ because of the psychological stress and pain in relationships that can both exist *and* be removed. We wanted to shine a light on things that might easily be done to remove that pain in our lives, hopefully without removing the relationship. Then we noticed around us many people with bodily pain from arthritis, back pain, neck pain, leg pain, and feel powerless to do anything about it outside of surgery or addictive painkiller medication. Bodily pain and/or addiction can hamper, or even doom, relationships, regardless of great advice. Sometimes those must be taken care of - along with good advice on the relationship dynamics. Then, like a story unfolding, the following happened.]

~..~

I was scheduled for hip surgery. I was in intense pain and had even begged, if they could, to move the date up. They moved it up 2 weeks and I was so grateful that I would have to endure pain for only a month prior to surgery.

My sister, who also had hip replacement surgery, sent me a bottle of CBD oil, and on my one-week checkup prior to surgery, I went in for the customary pre-op visit. The surgeon asked me how I was doing. I told him that my pain was gone...two days after I took the CBD oil. So, he canceled the surgery! That was many months ago, and not only do I remain pain free, but I also have skipped my customary cortisone shots for my knee and shoulder that I normally get every 4-6 months. I have no joint pain. I do not grunt and groan to get out of a chair. I was, and still am, astounded over how powerful this product was for me.

Whether I felt it was a miracle for me or not, the price was over \$120 a bottle. So, here at DZ Productions we decided to open our own facility. And not only have things gotten better with our brand, but we charge substantially less. Why? Quite simply, we do not have coupons, nor affiliates (salespeople) who would take a substantial percentage, nor do we have "specials" such as "Buy one get one ½ off!" "Sales!" nor "Introductory offer!!" etc.

We just give you the best price possible, period.

AND, to keep the cost down, we provide FREE shipping in the USA!

I can only assure you that this is MY experience. I am deliriously happy to be living without pain every day. AND avoiding major surgery is a big cherry (with whipped cream on top!). Everyone is different. I felt better in two days. In four days, I was pain free. Friends of mine have taken over a week to show results.

Because of individual differences, and avoidance of following directions, no results can be promised.

What we do know is that we each have our own levels of need and amounts of CBD to show results.

~..~
